Work and store in place

Optional access doors allow for each container's contents to be accessed while remaining in the stacked position.

Options 1:
Flat or Smooth Bottom

Option 2:
Ribbed or Cross Stacked Bottom

- Manufactured using injection molding technology and design yielding a strong weight to strength ratio.
- Optional Card Holder features 2 clips that are snapped into place within a preset groove on the short sidewall of the container. This design offers a secure option to hold cards in place during transit.
- Single lift latch for easy folding
