# RRM Freezer Spacer

SKU: RRM FS3400 48.40

- The Standard Egg Crate design spacer provides a six-way vertical/horizontal air flow
- Excellent cold conductivity can reduce the average freezing time by up to 17% when compared to wood
- Spacers drastically reduce footprint. While a 6 foot high space can only accommodate 25 wood spacers or 36 aluminum spacers it can hold 500 standard design spacers
