- A superior strength-to-weight ratio ensures maximum carrying capacity and enhanced rigidity for heavier loads.
- The molded-in top deck texture enhances the coefficient of friction (COF), helping to prevent product slippage.
- Injection-fed compression molding technology, utilizing compatibilized materials, delivering superior durability, impact resistance, and optimized performance.
- RFID capability.
- Engineered for safety, with a lightweight design and ergonomic handles helping prevent injuries and promote secure handling.
- Rubber grommets on the bottom legs are available to minimize pallet movement in trailers during transit.
